

COMPANY PROFILE

COMPANY > ABOUT ARINOS > VALUING CLIENT SATISFACTION.

ARINOS is a growing information technology (IT) Services Company providing outsourcing, technology, media and infrastructure management services to clients across core information technology, financial, healthcare, communications and publishing sectors apart from other industries. Formed in 2006 with a drive to excel and create a difference, we understand the needs of the small and medium-sized business community and offer a broad and comprehensive range of localized solutions.

Founded by a group of like-minded go-getters with extensive backgrounds in technology, sales, marketing, and design, we believe that design has the power to effect change in our clients, our industries, and the world at large. This level of challenge asks us to step up, time and time again, in constantly developing as individuals, thinkers and designers.

At **ARINOS**, we value **total client satisfaction** thereby ensuring our clients to revert back to us for future needs. We take initiatives and plan activities with the ultimate goal of long-term relationships. Using our innovative process management framework and customer centric approach along with industry expertise, we provide cost-effective services that enable our clients to enhance business performance, accelerate time-to-market, increase productivity and increase customer service. We at **ARINOS** strive consistently to deliver real improvements on business performance for our clients, through a combination of technology know-how, domain and process expertise.
